NATIONAL SOCIALIST REVIEW

Starting with this issue, the National Socialist Liberation Front will publish a monthly Bulletin. The purpose of National Socialist Review is to keep in touch with all our supporters and to let them know of all the advancements N.S.L.F. is making. SEIGE will continue to be published but will now take the form of an ideological journal while it will be the job of National Socialist Review to report on the activities of N.S.L.F. In addition, SEIGE is a quarterly which is too long a period of time for the following to wait for word on internal organizational activities. National Socialist Review is sent free to all N.S.L.F. members. Non-members can subscribe at \$5.00 per year or fiftycents per copy. To get NSR you must subscribe or join NSLF.

FOURTH QUARTER, NUMBER TWO OF SEIGE AVAILABLE

The fourth quarter issue of SEIGE is now available for distribution. This newest issue has a new format, a more professional type style with a greater amount of graphics. The new magazine style contains many informative articles on interMovement happenings and a very important article on "Building the Revolutionary Party". Single copies are available for \$2.50 each or \$9.00 per year. SEIGE is sent free to N.S.L.F. members. Others must subscribe!

CAPTAIN JOSEPH TOMMASI ON RKO'S CHANNEL 9 TV

Captain Joseph Tommasi, leader of the National Socialist Liberation Front, along with Bart West, a spokesman for the Ku Klux Klan, appeared on Channel 9 TV in Los Angeles. The program, "The Morning Show," is hosted by the black moderator Tom Hawkins.

Captain Tommasi and Mr. West were to debate a member of the N.A.A.C.P., who promptly chickened out. Instead of the NAACP representative Channel 9 invited a black organizer who earlier that week had helped organize a march in Pasadena, Cal. to promote bussing. Channel 9 also had a former mayor of Beverly Hills who is now a "Constitutional Lawyer," promoting race mixing and bussing; he is a Jew.

As the show proceeded the race-mixers continually turned all the realities of a race-mixing society around, spewing untruths and deceit to the TV audience. At this point the National Socialists blasted these lies with calls for armed resistance on the part of Whites against any and all attempts to mongrelize White society.

It was brought out that NSLF has been attempting to arm the students of Boston with weapons for use against the System and the blacks who are trying to break White resistance towards the integration schemes. The mention of guns to further the National Socialist struggle brought shock and terror into the minds of the Enemy. The black and the Jew became extremely upset as the telephone lines into Channel 9 overflowed with callers wishing to speak to the National Socialists.

Many times during the insane statements of the black and Jew, fist fights nearly broke out as it became too absurd for the National Socialists to allow the race-mixing duo to continue with their anti-White antics.

As the show neared its end Mr. West and Captain Tommasi continued to blast the race-mixers' notions that they were going to "take what was theirs" by letting these two swine know that indeed they would have to take it for Whites would continue to resist their efforts and that this resistance would soon take the form of armed assaults against the enemies of the White race.

The show was a complete success for NSLF as it allowed the public to know that there is now an organization which has every intention of fighting with the Revolutionary Violence of National Socialism.

A SPECIAL NOTE ON NSLF PUBLICATIONS

The Underground recognizes that there are a lot of "dead beats" in the Movement, people who like to criticize everyone's efforts no matter what those efforts may be, while never contributing any help whatsoever to the Struggle for liberation.

Therefore the NSLF Underground has adopted the following policies:

1. Only the bulletin of NSLF, National Socialist Review, will be "exchanged" for the publications of other organizations. Non-members of NSLF will have to subscribe to NSR; rates are \$5.00 per year or fifty cents per copy. National Socialist Review is published monthly and sent free to card-carrying members.
2. An introductory copy of SEIGE will be sent free to new inquiries to NSLF. Card-carrying members of NSLF receive SEIGE free. All other persons interested in receiving SEIGE will have to subscribe at nine dollars per year or two dollars and fifty cents per copy. SEIGE is published quarterly (every three months). Only under special circumstances, such as an organization which publishes a monthly "newspaper" or similar journal, will SEIGE be exchanged in return for said periodical.

NEW ORDER BOOKSHOP PROGRESS

When the Underground first opened the New Order Bookshop we were promised help by past NSWPP associates in helping to maintain the bookshop. It was hoped we could keep it open from the early morning to midnight; as it turned out these people let us down. We were not able to maintain open business hours as consistently as we would have liked. The bookshop has been open only three to five days out of the week when it should have been open seven days a week for at least ten hours a day.

To be precise we are suffering a staff shortage. The reason for this is THE BOOKSHOP IS NOT NSLF HEADQUARTERS. NSLF Headquarters is located at another location for obvious security reasons. Most of our supporters are working class people and cannot afford to take time off to man the store. The only solution to this problem was to find a Comrade who was in a position to man the store without interfering with his personal situation. We therefore sent out notices to those Members we felt could accomodate such a demand.

We are therefore pleased to announce that Comrade Damon C. Vashon of Louisville, Kentucky will be transferred from Kentucky to Los Angeles to be bookshop manager. By January 20, 1975 the bookshop will be open on a guaranteed daily basis. Another obstacle has been overcome by the revolutionary dedication of our following.

NSLF ARMAMENTS AND EQUIPMENT

NSLF is building an armed Revolution and we are dead serious about our intentions. We must therefore require all NSLF Members to acquire the following equipment:

1. .45 Cal. Automatic pistol. This is required because of its unbelievable "hard hitting" killing power. Also, if a .45 Cal. Auto. is used in such a manner that one doesn't wish to be traced by ballistics the barrel can be easily disposed of and a replacement installed very easily. Barrels and parts are very easy to obtain and the cost is approximately \$8 for a new barrel. In addition, ammunition is abundant and in a revolutionary situation almost every gun store and armory has large quantities of ammunition.

2. 12 gauge, pump action, Hi-Standard (trade name), 7-shot magazine shotgun. This is the ultimate in "crowd control" weaponry. The police use it with deadly efficiency and so will we.

3. .308 Cal. Military assault rifle. This will probably be the most necessary piece of equipment you will have, also the most expensive, unfortunately. Most of the NSLF following are working class people and have tight budgets. However, it is imperative that you save up for this weapon, your life may very well depend on it. There are basically four different "types" of .308 assault rifles: 1) The .308 Heckler Koch (G-3) Nato Semi-Auto Rifle, 2) the .308 Cal. SIG, Swiss military assault rifle (pictured in Number Two SEIGE), 3) the civilian Springfield Armory M-14 American semi-auto rifle, and 4) the Belgian FN-FAL Nato Assault rifle (the most expensive and hard to find of all). Any individual who has any substitute weapon should contact NSLF Headquarters for advice.

4. New Military gas masks. These can usually be obtained in military surplus stores.

5. Bullet-proof vests. These may also be obtained at military surplus stores, and are essential.

Special mention should be made for when obtaining weapons try not to have them registered and to always obtain as many ammunition magazines as possible.

JAILED COMRADE

Member Paul Mooney was arrested in October, 1974 after FBI agents pulled a raid on his home at 1:00 a.m. Comrade Mooney attacked the agents who had broken down the door of his home inflicting injuries to two of the enemy agents. One agent had his ear bitten off while another was assaulted by his own shotgun along the side of the head. NSLF Member Mooney was then handcuffed around the feet and hands and spirited off to the county jail.

After four months of incarceration Comrade Mooney was released to a "half-way" house. This action was taken instead of a long prison term because of the illegal raid by the FBI.

A SPECIAL MESSAGE

The National Socialist Liberation Front has obtained tremendous amounts of support, mostly from the more militant elements of the Party. This has enabled us to overcome many significant obstacles, obstacles which had completely put further development of above-board activities to a halt. With the installation of the RADICAL HOT LINE telephone message service, which should be complete by the end of January, there will be no further obstacles to cope with, outside of normal expenditures. To maintain everything we now have will take a very special effort by everyone to continue and whenever possible, to increase their financial obligation to NSLF. Without your support we will fail in our tasks.

Starting in February NSLF will launch nationwide street confrontations with the enemy. Every Liberation Front activist must prepare for the 1975 offensive. A violent year lays ahead and we must do everything possible to exploit the opportunities which shall present themselves to us. You must not fail in your obligations to the Armed Struggle. You must throw yourselves completely into the battle for liberation. You must intensify your support to the underground; pass out literature whenever possible, sell SEIGE whenever the opportunity presents itself, and pull off demonstrations against the enemy. Above all, keep in mind that everything we do must lead toward armed confrontation with the enemy, BUILD THE ARMED STRUGGLE!
